OSTRANDER RANCH

"Ostrander had enough respect for a ghost to not live in that house. You will hear this among all old timers. Loomis was not scared of the devil; a haunt never bothered him.

"John Miles and I spent the night at the Loomis house several times.

"The two men came to this country with barrels of money to make more.

"Loomis had a regular stand of arms and dogs.

"Mr. and Mrs. Loomis came and spent a day with wife and me. They drove two wonderful speedsters to a combination buggy with a lovely umbrella over it. The wind blew the covering from the umbrella and my wife made one and put on it, she worked all day long, and it was beautiful."
